

## Easter Means "Dress Up"

And the easiest way to obey that impulse is to buy everything you need here.

You'll benefit in two big ways by doing so.

First our Spring stocks are large—and a wide variety makes buying simple.

Second, you will feel better about new clothes if you don't have to worry about the cost.

—and our prices have a reputation for being reasonable.

Clothcraft Clothes are here in all their Spring newness. At \$10 to \$25 the styles, materials and workmanship can't be paralleled.

Don't delay—Spring is here to stay.

### Brodhead

IN our last letter we forgot to mention that the Knoxville Boosters were at Brodhead, and while their stay here was rather short, the southern city was well represented while here. About five hundred people were about the depot to receive them, and their stay seemed to be a very pleasant one. A number of familiar faces were among the boosters—Born to the home of Mr. and Mrs. D. B. Albright, last Wednesday, a fine baby girl.—Dr. and Mrs. W. F. Carter, and Mrs. John E. Evans, and little daughter, Geneva, were in Stanford, Thursday, of last week Mrs. Evans' little daughter had a severe attack of pneumonia last winter from the effects of which she has not fully recovered, leaving her lungs in a serious condition, and the Stanford doctors were consulted about her condition. Dr. Carter is attending her.—Mrs. L. B. Hilton and little son, Master James Butler, of Stanford, were recent visitors of her parents, Mr. and Mrs. J. R. Cass, here.—Mrs. Sarah Purcell returned to her home near here after spending several days the guest of Mrs. J. R. Cass.—Mrs. Vester Francisco, who has been sick so long, is in a very sick condition, and is not expected to live but a few days.—U. B. Cass and Claud Owens are in Cincinnati, where they have good positions.—Mrs. George Tandy, of Milton, Ky., is the guest of her daughter, Mrs. B. T. Young. She will likely return to her home tomorrow.—Grand daddy Cass went to Louisville last Saturday morning, returning that afternoon with Logan Bryant in a new Ford car. The car, however, does not belong to daddy, but he has the Ford fever alright—Regular services were held at the Christian church, Saturday and Sunday, by the pastor, the Rev. R. B. Baker, of London.—H. L. Tharp, L. & N. Agent at

Junction City, was here between trains Sunday, with his daughter, Mrs. R. E. Albright—Mr. and Mrs. B. T. Young, and their three boys, have been sick during the week. We are glad to report that some of the number are much better, and hope that all will soon be out again.—Chint Lear was near London this week to see a doctor about his condition. We have not learned what the mountain doctor thinks of Mr. Lear's condition. Mrs. W. E. Sproule has been quite ill for the past several days with rheumatism.—Little Vivian Albright, daughter of Mr. and Mrs. A. E. Albright, came near losing her life last Sunday when she fell upon the rail road track a few feet in front of train No. 23, and had it not been for the undaunted courage of Prof. J. L. Pilkenton the child would have been killed without doubt. The engine man applied the emergency brake but was unable to stop the train until it had passed the point where she fell some fifty or more feet. The child in attempting to cross the track, when the train was probably within 150 feet of her, and her brother-in-law, W. G. Yaden, realizing the great risk attempted to assist her across, and just as he went to take hold of her she fell, and as he was running, failed to catch her. Prof. Pilkenton made a leap, caught the child and saved her life at a great risk of losing his own. We feel that the Professor is justly entitled to a Carnegie medal.—Mr. and Mrs. A. M. Hiatt were the guests of her parents, Mr. and Mrs. R. L. Smith, in the Hiatt section, Tuesday.—Miss Myrtle Murray, of Crab Orchard, has been visiting relatives here during the week.—Mrs. W. A. Tyree is quite sick this week.—A man by the name of Stevenson attempted to brake into the store of J. T. Lawrence, Tuesday night, and when he found that the task was a difficult one, he went up an outside stair way, and with a pair of steel knucks knocked out a panel of

the door leading into the bed room of Mr. and Mrs. Lawrence. He of course did not expect any one to be in the building, and when the alarm was given, the man was unable to get away until the officers nabbed him and landed him in jail. His examining trial was set for Wednesday but on account of the fellow having no attorney the case was continued until this morning. The result of the court's finding will be reported later. County Attorney Gentry was here to look after the Commonwealth's side of the case. The same night Willie Harp, who was on a boarding car here, was reported to have been relieved of \$23.00 in cash while he was safe in the arms of Morpheus. It was also reported that the Rev. J. J. Belcher's horse was taken, but later found near Ottawa.

### RESOLUTIONS.

The Sunday School of the Mt. Vernon Christian Church, Mt. Vernon, Kentucky, in regular session on Sunday, April 16, 1916, unanimously adopted the following resolutions:

First, That our school has sustained a great loss, by the removal of our Superintendent, Mr. C. C. Davis, to Winchester, Kentucky, to be followed in a few weeks by his estimable wife and lovable daughters.

Second, That Mr. Davis was efficient and progressive as a Superintendent, untiring in his efforts, unselfish in his service, self-sacrificing in his devotion, generous towards every appeal and loyal to every co-laborer.

Third, That a copy of these resolutions be sent to the Weekly Bulletin for publication, a copy to the Christian Church at Winchester, Kentucky, and a copy be published in the Mt. Vernon Signal.

H. T. YOUNG,  
E. S. ALBRIGHT,  
E. R. GENTRY,  
Committee.

### "HOW TO BOOM A TOWN"

Not long since the SIGNAL copied from Lancaster Record, the following, recommended by the latter as requisites for 'Booming a Town':

1st. Men of "Push and energy," men who erect good buildings; organize stock companies; establish factories; secure railroads; work for public improvements; and use every means in their power to locate in their city men of this class." Closing by saying: "Make the town attractive to strangers."

We, and every good citizen of Mt. Vernon, indorse what our clever editors have given us thru their papers:

They, of course, meant that class of "strangers" that are welcomed in every progressive community, who add by their presence to the moral and religious growth.

Mt. Vernon has the distinction of having some men who are classy if not "classie," as "Boosters."

While we, as an individual, may not be in sympathy with everything that is boosted, we can point with pride to several things that Mt. Vernon's business men have been active and successful in pushing to a satisfactory issue. First in importance is the "Good Roads" movement.

They have been eminently successful as leaders in the location of Boone Way and Dixie-Boone Highway.

The people who boosted and brought to a successful termination, the bond issue in favor of High School and Good Roads are entitled to our gratitude and appreciation.

To the business men of Mt. Vernon we are indebted for the installation and excellent service rendered by our Light and Power plant.

It may be said that we have passed the uncertain and doubtful stage in the bond issue campaign,

not only that, but the higher courts have decided that a two-thirds majority is not necessary to decide a popular question that a majority are in favor of.

In other words the majority have a right to be favored rather than the minority. While we are commending ourselves and extending mutual congratulations for what has been accomplished, let us make a further survey of our social and civic environments.

With all of boosted improvements, may we quote from Holy Writ: "Yet lackest thou one thing. 'Our Savior said: 'Cleanliness is next to Godliness,' one of our lawyers quoted on a recent occasion: Now the application, and by the way the most important of all the measures we have mentioned:

The one thing needed so much is WATER WORKS—we repeat, WATER WORKS.

We shall never get safely and permanently seated on the "Water Wagon" till we have Water Works, furnishing a bountiful supply for drinking and bathing as well as cooking and flushing our gutters and side walks.

There is no need of reminding our people of what they already know of the abundant supply of pure water near by and the topographic advantages of erecting a water tower or reservoir, the latter preferable. Furthermore, we need not point to, nor elaborate on the epidemic of typhoid fever, that has been, and remains a menace to our town and surrounding community. In our haste and zeal for the pushing of commercial enterprises we have ignored, or at least neglected the most vital question to the progress of any community.

The sanitary condition of the home, the school, the streets and allies, barns and hog pens, chicken roosts and pig sties, are of far more importance than streets, side walks, lawns or back yards. The neglect of hygienic precaution in matters referred to involves the question of good health, yea, life itself. Sooner or later your life or mine or that of some loved one, may be the price paid for our procrastination. It is only a question of time when we'll have water works. The plan and rough estimate of cash is practically understood by some of our business men. It remains for some man in whom we have confidence as a conservative business man to take some other business man into his confidence and agree on a plan.

The time is ripe for this initiative, and eliminating partisanship, and sacrificing some of our prejudices, we can and must have water, fresh water, clean water, in abundance. We need to have a washing away of our political sins, and we venture the assertion that enough money has been spent to have put a water plant in Mt. Vernon, for that which does not remove political or any other kind of sin. On the contrary it makes the dye deeper and blacker, that send souls to perdition. Who will be the man, or body of men that will act on the suggestion—"Water, Water" we have plenty of it—but not fit to drink.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure by local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

J. H. Cheney & Co., Toledo, O. Sold by Druggists, 75 cents. Hall's Family Pills for constipation.

## NOTICE

All signs indicate and justify us to predict that 1916 will be the greatest year of prosperity in the history of old Rockcastle county. Work plentiful, labor scarce. Ask us for "Booster Tickets." Get on board while the Going's Good and get your share of the profits. Our line is Drugs. Call and see us.

Yours Respectfully,  
**CHAS. C. DAVIS**  
LEADING DRUGGIST  
Phone No. 39

The first stroke of the brush will prove the superior covering [hiding] power of Kurfees Pure Lead and Zinc Paint. You will immediately appreciate the difference in spreading a paint composed of:  
80% Lead and 20% Zinc  
and the paint you have heretofore been using.  
In no other paint will you find 80% Lead; nor will you find a paint of such heavy body.  
Ordinary paints do not cover like Kurfees paint, for the simple reason that they do not contain sufficient Lead to make them cover. You know a paint must contain Lead and lots of it, if you expect it to cover and wear well.  
If you get Kurfees 80% Lead and 20% Zinc Paint, you don't need to buy as many gallons for the job as you would of ordinary paint, nor will you need to repaint the job so soon.  
Kurfees Outside White is the whitest white; makes the whitest houses; and the colors are all good and permanent. Let us figure on your job.
